Research/Reading Electives
VA Medical Center-Outpatient or Consult Liasion Service
"Designer Rotation"

Vacation Time

For 4 week rotations, residents can take no more than 1 week of vacation
For 2 week rotations, residents can take no more than 3 days of vacation
WKHS residents receive 4 weeks of vacation per year.

Rotation Descriptions

Inpatient Psychiatry: Acute psychiatric evaluation and treatment in an inpatient setting with interdisciplinary care and risk management.
Outpatient Psychiatry: Longitudinal psychiatric care focusing on diagnosis, psychotherapy exposure, and medication management.
Emergency Psychiatry: Assessment and stabilization of acute psychiatric emergencies in the emergency department.
Consultation-Liaison Psychiatry: Psychiatric consultation for medically ill patients in inpatient medical and surgical settings.
Child and Adolescent Psychiatry: Evaluation and treatment of psychiatric disorders in children and adolescents.
Geriatric Psychiatry: Psychiatric care of older adults, including cognitive, mood, and behavioral disorders.
Addiction Psychiatry: Assessment and treatment of substance use disorders, including medication-assisted treatment.
Electroconvulsive Therapy (ECT): Clinical exposure to evaluation and treatment of patients receiving ECT.
Forensic Psychiatry: Introduction to psychiatry's interface with the legal system and forensic evaluations.
Senior / Chief Inpatient Psychiatry: Advanced inpatient psychiatry with supervisory and team leadership responsibilities.
Intensive Outpatient Program (IOP): Participation in structured, high-intensity outpatient psychiatric treatment programs.
Research / Scholarly Activity: Protected time for supervised research, quality improvement, or scholarly work.
